No Surprises Act

Protections Manager: Mandy Beeman 503-860-2372

The No Surprises Act protects people covered under group and individual health plans from receiving surprise medical bills when they receive most emergency services, non-emergency services from out-of-network providers at in-network facilities, and services from out-of-network air ambulance service providers. It also establishes an independent dispute resolution process for payment disputes between plans and providers and provides new dispute resolution opportunities for uninsured and self-pay individuals when they receive a medical bill that is substantially greater than the good faith estimate they get from the provider. You can get more information on the CMS.gov website.

At Serenity Bodywork LLC., we pride ourselves on being as transparent as possible when it comes to our prices and what you as the patient will owe. We are also as transparent as we can be regarding what your insurance company will cover, whether it will be a contracted rate or our full billing price. To honor this new Act, we are making a clear guide for you to know fully what the max amount you could owe to Serenity Bodywork for your Massage Therapy services. If you have any questions or concerns, please reach out to our Protections Manager. Below you will find a breakdown of our billing for various services. If you feel like these don't apply to the services you want to receive, we are able to make you an individual good faith estimate.
